

Co-production in Adult Social Care

We have made a plan to work together more with residents

We call this **co-production**

How we will work together

- We will focus on what is important to you

- We will respect and welcome everyone

- We will listen

- We will be honest about what we can achieve together

- We will give you enough clear information

- We will make sure you have everything you need to take part

Our plan for working together with you

- We will give you support and training so we can work together

- We will make sure there are opportunities to work together

- We will include groups who are left out

- You will be more involved in decision-making

- We will check how we are doing at co-production and see how we can improve
